PROFESSIONAL SUMMARY

Software developer with hands-on full-stack experience shipping live web and mobile systems for real clients. Founder of DevA², building and maintaining production apps with JavaScript/TypeScript, React, Next.js, Node.js, Firebase, and Supabase. 4th-year BSIT student and Dean's Lister, seeking a 486-hour software development or full-stack developer OJT starting December 1, 2026.

EDUCATION

Bachelor of Science in Information Technology, Major in System Development
De La Salle Lipa | Expected June 2027 | Elective: Web Development
Dean's Lister — 1st & 2nd Semester, A.Y. 2023–2024

EXPERIENCE

Founder & Full-Stack Developer — DevA² (devasq.site) *Aug 2026 – Present*

- Run a two-person development studio that designs, builds, deploys, and maintains web systems for school organizations and small businesses.
- Shopaholichs (shopaholichs.store): Built and maintain the official merchandise store and admin portal for BatStateU's College of Health Sciences, with role-based access, sign-in limited to university accounts, QR-verified pickups, and unit tests on Firebase Emulators.
- Smart NFC Cards (nfc.devasq.site): Built a platform that turns NFC cards into live, editable profiles, with vCard export, scan analytics, multi-device editing, and an admin tool that batch-generates up to 1,000 cards and writes them to NFC tags.
- The Lathe (in development): Building the public site, literary folio, and admin portal for The LATHE, the official student publication of BatStateU Pablo Borbon.

PROJECTS

PalengkeHub: Online Ordering for Lipa City Public Market
Capstone Project | Full-Stack Developer & Project Manager (4-person team)

- Led the team and built an Android app (React Native/Expo) and a React/Vite admin for per-kilo price comparison across stalls, multi-stall ordering, GCash payment, and pickup at the stall.
- Designed the Supabase (PostgreSQL) schema for stall prices, vendor inventories, and orders, and deployed on Cloudflare Workers and Pages.

NurseBeacon + Reassure: Ward Communication System
Client: LPU 4th-Year Nursing Students | Flutter, Dart, Supabase, Netlify

- Built one Flutter app that serves as a patient bedside tablet, nurse badge, and ward admin dashboard, using Supabase Realtime so patient requests reach nurses instantly; 29 unit tests.

YslaPB: Browser-Based Photo Booth
Personal Project | Next.js, TypeScript, Tailwind CSS, Firebase, Cloudinary, MediaPipe

- Built a group booth where up to 6 people on separate phones shoot one strip together in real time, using Firestore transactions and live listeners.
- Added in-browser background replacement with MediaPipe, 15 live filters, 60 frames, and GIF, Instagram Story, and print exports rendered on HTML Canvas.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript, Dart, PHP, C++, SQL, Bash, HTML5, CSS3
- Frontend & Mobile: React.js, Next.js (App Router), React Native, Expo, Flutter, Vite, Tailwind CSS, Framer Motion
- Backend & Databases: Node.js, Express.js, Supabase, Firebase (Auth, Firestore), PostgreSQL, MySQL
- Cloud & Tools: Cloudflare Workers & Pages, Vercel, Netlify, Render, Git, GitHub, Linux, Postman, Figma

CERTIFICATIONS & ACTIVITIES

- Cisco: Python Essentials 1 & 2, Cyber Threat Management | Accenture: Skills to Succeed Academy
- International Education Tour, Universiti Teknologi PETRONAS, Malaysia (Apr 2026)
- JPCS Public Officer (A.Y. 2024–2025) | Languages: Tagalog, English, Malay
