PROFESSIONAL SUMMARY

Full-stack developer who ships production web and mobile apps end to end, from React and Next.js frontends to Node.js/Express APIs, Firebase and Supabase (PostgreSQL) backends, and cloud deployment. Founder of DevA², building live systems for real clients. 4th-year BSIT student and Dean's Lister, seeking a 486-hour full-stack developer OJT starting December 1, 2026.

EDUCATION

Bachelor of Science in Information Technology, Major in System Development
De La Salle Lipa | Expected June 2027 | Elective: Web Development
Dean's Lister — 1st & 2nd Semester, A.Y. 2023–2024

EXPERIENCE

Founder & Full-Stack Developer — DevA² (devasq.site) *Aug 2026 – Present*

- Run a two-person studio that builds web systems for school organizations and small businesses.
- Shopaholichs (shopaholichs.store): Built the merch store and admin portal for BatStateU's College of Health Sciences, with university-only sign-in, QR-verified pickups, and emulator tests.
- Yamato Cafe by Wyvern: Built a café platform for a Batangas City client with NFC table taps, a digital stamp card with Apple/Google Wallet passes, a staff scanner, and an owner CMS on Firebase.
- Smart NFC Cards (nfc.devasq.site): Built live, editable NFC profile cards with vCard export and scan analytics, plus an admin tool that batch-writes up to 1,000 cards to NFC tags.
- The Lathe (in development): Building the public site, literary folio, and admin portal for The LATHE, BatStateU Pablo Borbon's official student publication.

PROJECTS

PalengkeHub: Online Ordering for Lipa City Public Market
Capstone Project | Full-Stack Developer & Project Manager (4-person team)

- Led the team and built an Android app (React Native/Expo) and a React/Vite admin for per-kilo price comparison across stalls, multi-stall ordering, GCash payment, and pickup at the stall.
- Designed the Supabase (PostgreSQL) schema for stall prices, vendor inventories, and orders, and deployed on Cloudflare Workers and Pages.

NurseBeacon + Reassure: Ward Communication System
Client: LPU 4th-Year Nursing Students | Flutter, Dart, Supabase, Netlify

- Built one Flutter app that serves as a patient bedside tablet, nurse badge, and ward admin dashboard, using Supabase Realtime so patient requests reach nurses instantly; 29 unit tests.

YslaPB: Browser-Based Photo Booth
Personal Project | Next.js, TypeScript, Tailwind CSS, Firebase, Cloudinary, MediaPipe

- Built a group booth where up to 6 people on separate phones shoot one strip together in real time, using Firestore transactions and live listeners.
- Added in-browser background replacement with MediaPipe, 15 live filters, 60 frames, and GIF, Instagram Story, and print exports rendered on HTML Canvas.

TECHNICAL SKILLS

- Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Framer Motion, HTML/CSS
- Backend: Node.js, Express, REST APIs, Firebase Cloud Functions, JWT auth, role-based access
- Databases: PostgreSQL (Supabase), Firebase Firestore, MongoDB, MySQL
- Mobile: React Native, Expo, Flutter (Dart)
- DevOps & Tools: Git, GitHub Actions, Vercel, Netlify, Cloudflare, Firebase Hosting, Postman

CERTIFICATIONS & ACTIVITIES

- Cisco: Python Essentials 1 & 2, Cyber Threat Management | Accenture: Skills to Succeed Academy
- International Education Tour, Universiti Teknologi PETRONAS, Malaysia (Apr 2026)
- JPCS Public Officer (A.Y. 2024–2025) | Languages: Tagalog, English, Malay
